The News.

The Baltic, with \$350,000 in specie, 100 pagcengers and erveral days later dates from Europe, arrived at New York yesterday. She brings some interesting intelligence. There has been more hard fighting in India without decisive results. The British reinforcements were a riving rapidly. Bread-tuffs had again declined in England, and the money market is growing more and more stringent. The Bank of England had raised its rate of interest to 7 per cent, and won the great Cesarewitch stake (worth \$10,000) benting 19 competitors. This is a brilliant biumph for Mr. Ten Brook.

The villainous frauds practiced by the Pro-Sia hery Democracy in Kunsus have, it is said, neov ed too much even for Gov. WALKER, and he has decided to reject the "supplemental" returns from Johnson county. If so, he will prove more honest than the Barstow canvas ers in this State. The rejection of the fraudulent Oxford vote wiil ensure a Free State Legislature.
The Mormons, it appears, are actually prepar-

ing to resist the arms and authority of the Federal Government.

The pupils of the High School at Racine, which is under the charge of Mr. McMyss, send us a brief, but conclusive raply to the eplemetic assealts of "Junius" upon their respected teacher. It is a tribute of which Mr. EcMynn may well feel proud, and which disposes most effect-If the readers of the Scatinel desire to see the Public Schools of our State but in charge of a man who understands his business and will do his daty, "without fear, havor or affection," let them cast their votes, on Tuesday next, for John G McMyss, as Superintendent of Public Instruction.

DECLINED. - Mr. SCHOLTZ, the Republican can didate for Senator in the south half of this county, declines the nomination, for reasons set forth in his card. While we negret the decision, we we must say that Mr.Schultz's reason for taking this step is a good one and does him tradit.

REFEREICAS NOMINATION.-The Republicans of the First and Seventh Wards met last evening and ununinously nominated WILLIAM A. PRESriss, as their candidate for the Assembly. This is a strong and popular nomination. Mr. Paus-TIES is admirably qualified for the post, and ought to be triumphantly elected.

DEFINING ITS POSITION .- The Wisconsin which claims to be "independent in politics," but is strongly opposed to the Euchanan Administration, thus defines its position, in its advice to elect is as to what candidates to support, at the State election :

In making up their minds how to vote, electors -does Mr. Cross or Mr. Randall really favor the principles which I approve? Every supporter of President Buchanan will natur-ally sustain Mr. Cross, because Mr. Cross, both in the resolutions of the Convention and in his letter of acceptance, is uncompromisingly committed to the acts and policy of the Bachanan Administration—while those who oppose the ad-

Administration—while those who oppose the na-ministration, will support Mr. Rundall as the rep-resentative of the Republican party.

But it is ho'd be borne in a hind that there are other officers to be elected inly as important as that of Governor. The Bank Comptroller, the State Su-perintenden of Public Instruction, the State Treasurer, and the Attorney General, are offices which exert a decisive influence on the good govenument of the State. Those who know the candidates, are said-field that with McGregor, we may have a subject to the State Mynn, Hastings, and Lozsoo, among the officials at Madison, there will be no steading from the Treasury. Mesars, Editors :- In this morning's paper I see it announced, that the Convention which net last Saturday, to nominate a candidate for Sena tor for the 6th District, have seen fit to pominate me for that station. Permit me to say, through your paper, to the Delegaces of that Convention, and the votes of the district, that I find myself at present under cheumstances which forbid my accepting such nomication. Among other real sons this alone would be sufficient, that as Chief Engineer of the Fire Department, it would not be right for me to absent myself from the city, or perhaps three mouths, in a season of the rear, when my presence at home might be most needed, and thus neglect a duty for the performance of which the city pays a liberal salary. I must therefore very respectfully decline becomlug a candidate for such office.

THE REPUBLICANS of the Fourth Ward are invited to meet at the Menomone Bouse on Wednesday evening the 25th, at half peat 7 o'clock, to nominate a candidate to represent this District in the next Assembly of E. SHAW, Chairman Assembly District Com.

ASSEMBLY DISTRICT CONVENTION

THE REPUBLICANS electors of the Assembly District meet at "Sage's School House" on Saturday, Sistinst., 9 P. M. to nominate a candidate for Assembly. A. S. DARROW. HEUBEN STRONG,

The Violators of the Bailot Bur. In this Republican Government THE PROPL are the source of all nower and the court of las appeal. Their will is expressed and their verdict rendered through the Ballot Box. It is, there fore, indispensable that the Ballot Box should be vigilantly guarded from violence and fraud; and that those who dare to tamper with it, or attempt to falsify its decrees, should be punished as traitors to the State and enemies to Republican Institutions. We have seen in Wisconsin a startling instance

of attempted frauds upon the ballot box. When it became manifest, in November 1865, that majority of the electors of this State had ... osen COLES BASHFORD GOVERNOR, OVER WILLIAM A. Barstow, a few of the more reckless partizens of the latter, having heavy pecuniary interests at stake, deliberately went to work to cheat the people, defraud the ballot boxes and thus procure the certificate of election for their Chief. Accordingly, false counts and forged returns in sufficient number were trumped up, and with the help of the State Canvassers, partizans of BARsrow, this notable conspiracy was crowned with temporary success. But the success proved short-lived. The Republicaus made thorough work of "the canvass"; exposed the villsinous frauds and forgeries which had been resorted to; compelled Basstow and his backers to "come into court"; and, after a searching investigation, obtained from the Suprems Court a decree ousting the usurper, and instating Gov. BASHFORD.

parties hailed this result with the liveliest satisfaction, and approved and applauded the action of the Court, the reckless partizans who sided BARSTOW in the attempt to procure the Executive Office by fraud, prepared to maintain him in his usurped authority by roace. At the head of that desperate faction in this city was Mr. who, at the Revellion Meeting in Young's Hall to re-jet the Courts, defy the people, and make BARSTON Governor, in spite of the ballot box, prepared and introduced the following resolution: Resolved, That we tender our warmest thanks and are under deep obligations to Wm. A. Barstow, the Governor of the State of Wisconsun, for the noble and dignified stand be has taken in asserting the independence of the Executive Deand are under deep congations to will A. Bar-stow, the Governor of the State of Wisconsun, for the noble and dignified stand be her taken in asserting the independence of the Executive De-partment entracted to him by the people, and in partment entrusted to bim by the people, and in defending the Constitution and laws against the treasonable and treacherous assaults of a partizan Court, siming at political power, and insideously gruping at political dominion, and while thus vindicating, in his own person, the rights of the people of this state, we will sustain him with our hearts, our voices, our voice and our streath.

Happily for Mesers. Barstow, Cross & Co., the Rebellion was nipped in the bud. Popular senument declared itself so strongly and unmistakably against these Conspirators, that their 'attength" vanished and their courage oozed out at their fingers' ends, when the time for action arrived. Barstow resigned: McArthur yielded to " constructive force;" Cross & Co. fled the field; and the threatened treason was at an end. But for this peaceful and right result no credit is due to Barstow, Cross & Co. They were ready and willing to have resisted the decrees of the Supreme Court, spurned the declared will of the people, and availed themselves of the infamous frauds upon the Ballot Box. But their followers were not ready for any such outrages upon the purity of the Elective Franchise, the Rights of the People, the Authority of Law.

But these onspirators "still live," and are again striving to be placed in power. Mr. Cnoss, who backed up Barstow in his threatened rebeltion, now asks the People to elect him to the office which he was willing to help Barstow usurp! And remembering the underhanded means by which Barstow obtained his fraudulent majority, Mr. Gaoss resorts to similar expedients to help his own nomination. Here is the letter he wrote to the Superintendent of Construction on the Superior R. R., urging him to attend the Granville Caucus with all his Rail Road hands

Perhaps the Pennsylvania people, who love democracy even while it rains them, may be willing to approve the policy of the Administration, but a tax upon the necessaries of life will not be likely to add largely to the popularity of the Administration.

The Journal says:

The Statute provides certain fees for each certificate of sale issued by them, which, it adds "enall be in full payment for oterk hire and expenses incurred," in selling. The Statute contemplated that these fees should be charged on every tract sold. The Commissioners divide up the lands into 40 sure tracts, and compel purchasers to pay full fees on every such tract. In this manner the fees swell to an exercistant amount. The provision devoting them to the payment of clerk hire is utterly disregarded. Thousands and tens of thousands of dollars are taken from the School Fund, in direct and palpable violation of all law, for the payment of clerks, and the extertionate fees go into the pockets of the Commissioners! The expenditures of the army will also be subjected to a rigid comony. The Coast Survey office will not escape the general cutting down. In a word, Mr. Cobb intends to expend only as much as is recessary for carrying on the Government—paying no attention to the amount appropria-

As for the recommendations to Congres, the
'resident will not recommend any increase in
the tariff, with the exception, in all propositive, of the articles of ten, coffee, and sugar. This you may rely upon. The only encouragement the iron intensican expect is the recommendation to use iron seminch as possible in the construction of public indidings. Any attempt to increase the duty on iron will be opposed by the Administration. dministration. The Secretary of the Treasury has not receiv-
